

The Spectrum Chords and Lyrics

G, B7, Em, C (x2)

There was always something off.

But I'm somewhere in between.

C, D

The spectrum is just a part of me.

Only to find out later that people hated the way that I act.

I know, there's always someone who just won't understand.

But I can't, let that dictate my life (I know it can)

You'll find that it can help.
